3) Why FlashDock ?

small, light, fast and lots of space

Only 0.2 pound and 5 x 1.2 inches small, but with up to 2 TB memory expansion it's enough space for your creativity. 4k videos at over 400 MB per second.

Super sticky

FlashDock does not fall off or gets lost on the way. The small dock sticks to the MacBook and can be replaced at any time.

Easy to transport and always with you

2 micro SD card transport slots are very advantageous.

4) Design

- Ergonomic and functional and also a stylish clean look
- adapted to the edges of a MacBook
- just plug it in and it fits
- open architecture to replace the flash discs with better discs in the future

5) Prices

1 TB FlashDock	249,- € *
2 TB FlashDock	359,- € *

* including German VAT
